THE IMPORTANCE OF THE MEETING ON 'CHANGE,' at noon yesterday, to which brief allusion was made in the *Express* last evening, induces us to give the proceedings at greater length. The object of the meeting was fully set forth in the following report presented by a committee appointed at a previous meeting: To the Chamber of Commerce, Memphis: Your committee appointed by the Chamber of Commerce, on Saturday evening last, to present to a subsequent meeting of the Chamber of Commerce the practicability of the plan of the new enterprise of Captain DeHaven for building and establishing in the New Orleans trade a line of low pressure steamers, built upon the new and improved models; and also to report upon the probability and practicability of getting up a sufficient amount of stock to complete said enterprise, beg to report upon its entire feasibility; and that after looking into the plans and explanations of Captain DeHaven, after carefully weighing the advantages which must accrue to the city of Memphis, and the entire country tributary thereto, have no hesitancy in confidently advising the cordial co-operation of every member of the community interested in building up the interests of our city and section, and of expressing our faith in the ultimate and certain success; and we most cordially invite the taking of at least a portion of the stock by every business man of this city and vicinity. We beg also, furthermore, to report the special importance of the enterprise to each and all the railroads centering in Memphis, and to enjoin upon them the importance of owning a fair portion of the stock.

THE ABOVE BEING ADOPTED, Capt. DeHaven proceeded to elucidate the plan he had in view, of placing the new line of steamers in operation, and referred to the effect the enterprise must have upon the commercial interest of Memphis. He alluded to our splendid geographical position and natural advantages, and said he thought this was the most desirable place for building and repairing steamers on the entire Mississippi, or even the Ohio, and that plenty of excellent timber for ship-building purposes could be got in the vicinity of Memphis, and if this undertaking was commenced here it would at once add from ten to fifteen thousand to our population. He wanted the people of Memphis to take hold of the enterprise he represented at once, as other cities were anxious to get hold of it, and mentioned among others that of the city of Paducah. Considerable discussion followed the Captain's remarks, which were generally participated in by the business men present. Mr. Samuel Gates referred to the discriminations made against Memphis by the various railroads and packet lines, and looked upon Captain DeHaven's enterprise as the only means of correcting the evil. He hoped, therefore, our people would arouse themselves to the importance of prompt and vigorous measures to better our condition. Captain Lee looked upon the apathy and indifference pervading the commercial circles of the city as inexorable. He said that we had allowed our local packet lines to die out, and quietly surrendered the trade they brought us to other markets. He also alluded to the advantages Memphis possessed as a tobacco market, and yet no steps were taken to secure that trade, while at Clarksville there were more market transactions in tobacco in one day than there were in Memphis in ten years. If the people would only shake off their lethargy and go right to work, Memphis would one day become one of the greatest cities in the Union.

JUDGE J. T. SWANEY spoke in glowing terms of the new enterprise. Superintendent Robertson, of the Memphis and Little Rock railroad, followed in a telling speech. He said he had only been a resident of Memphis for about a month, having come from Little Rock to this city, but he had the interest of Memphis at heart. In Little Rock they had a ticket office, and when the merchants went to purchase their goods from Little Rock they went to Louisville and New York, and not a single merchant came to Memphis. Louisville held out greater inducements than Memphis, and by this means got all the trade. He then referred to the great natural advantages possessed by Memphis, and then went on in a thoroughly practical and sensible manner to refer to the great advance made by Atlanta, Ga., since the war. That city had increased just one-half larger than it was before it was burned down by order of Gen. Sherman, and all this had been done through the energy of its citizens. Four years ago they had nothing but blackened foundations to work on, and now they have a fine, flourishing city. He then referred to the excellent railroad connections in and around Selma, and said that if the citizens of Memphis did not exercise more energy, their trade would be tapped at every point. He wanted them to take advantage of the grand resources which nature had given the city. If they only gave encouragement to such enterprises as the one they were then discussing, the country in and around Memphis would soon blossom as the rose. He closed with a stirring appeal in behalf of the construction of the Memphis and Little Rock road, and said that if they would only assist him in getting one million dollars in bonds from the Arkansas Legislature, he would soon raise sufficient funds to build the road. On motion a committee of five was appointed by the chairman to solicit subscriptions for the Mississippi Valley Navigation Company's stock and work in conjunction with Captain DeHaven and Commodore Montgomery, viz: Dr. Watkins, Captain Lee, Mr. E. C. Cook, Mr. P. M. Mahan and Mr. H. H. Hanner. The meeting then adjourned until Monday, next.

EDUCATIONAL.
Tenth Anniversary of the State Female College.
First Day's Exercises.
As this month (June) terminates the scholastic year, the next few weeks will be devoted to examinations and the varied exercises incidental to commencement exercises. Ordinarily the friends of education manifest a considerable interest in these exercises, inasmuch as they expect the scholars to evince a commendable proficiency in their studies and a familiarity with the curriculum indicative of the fact that they labored with constant care and an unremitting assiduity to become *au fait*, and deserve the approbation of their parents. Here in the city where we have the most liberal educational institutions, skillful teachers and consequently pupils full of student ardor, the balance of the season will be full of interest to our people, and triumphs to those who have patiently and perseveringly labored in the cause of education. The examination of the young ladies of the State Female College began this morning in the spacious chapel of the college, under the auspices of Rev. Dr. C. Collins, the President, aided by a most efficient corps of assistants. The little girls were subjected to a very severe inquisition by their teachers, though they answered all the questions propounded with an accuracy and ease highly creditable to their application, and honorable to their teachers. Miss Sallie Gibson, a most amiable lady and a most excellent teacher, examined a class in Mythology, which was very satisfactory to all concerned. Her class in Natural Philosophy also stood a good examination; and that of Miss H. Seavy, in Algebra, evinced careful study and satisfied the most exacting. To-morrow is the examination of the graduating class—twelve in number—and in the evening at 8 o'clock, is the grand vocal and instrumental concert, and on Thursday evening the commencement exercises proper, preceded by an address by the Hon. Landon C. Haynes, come off.

MASONIC PICNIC.—St. John's Day, the 24th inst., is to be celebrated by the Masonic fraternity of the city by a grand basket picnic at James' Park, the arrangements for which are in the hands of those who will spare no effort in their consummation. The fraternity will proceed from the city to the grounds in a body, early in the morning, and the parade will not be the least interesting feature of the occasion. It is the purpose, in the event of pecuniary success, to devote the proceeds of the entertainment to the Masonic Relief Fund. It is to be hoped, therefore, the affair will receive the support of all who are charitably disposed.

RICE & ENGL will close out their present stock at a sacrifice to make room for an elegant fall stock, at 233 Main street, Clay Building.

THE VARIETIES.—Owing to certain delays on the road, Miss Helene DeVore failed to reach the city yesterday and consequently to appear on these boards last night. Her friends and admirers may look for her appearance this evening, however, together with other old favorites—the Florence Sisters, Minnie Gray, Mlle Henrietta, and the burnt cork artists.

FIRE THIS MORNING.
A Grocery and Tenement Destroyed on Winchester Avenue.
Narrow Escape of Inmates from the Burning Building.
About two o'clock this morning, a one story frame structure, at the corner of Winchester avenue and Alabama street, owned by Mr. Owen McCormick, and occupied by a sister-in-law of that gentleman as a grocery in the front and a residence in the rear, was entirely destroyed by fire. The flames originated in the grocery and spread with such rapidity towards the rear of the building, owing to a strong breeze blowing in that direction at the time, that the inmates barely escaped with their lives. Mrs. McCormick, her father and a third party, who is an employee of the City R. R. company, were sleeping in the house. The latter was the first to wake and succeeded in extricating himself unharmed. The father of Mrs. McC., an old gentleman, in rushing out of the door, was so closely followed by the flames that all the hair on his head was burned off and his shoulders slightly burned. Mrs. McCormick's escape was still narrower. When she awoke the only egress left her was through a rear window, and in making an effort to gain this she was so suffocated by the smoke and heat in the apartment that she fell to the floor, and would have perished had not her perilous condition been discovered by parties outside, who gallantly rushed into the building and succeeded in removing her through the window. Being of a very corpulent person, this was rendered all the more arduous, and those who went to her rescue did so at the peril of their own lives. Neither of the inmates succeeded in saving any portion of their wardrobe beyond that in which they had retired the night before. The building, furniture, fixtures, and the stock in the grocery, were completely destroyed. Mr. McCormick's loss in the building is estimated at \$1000, upon which he has \$600 insurance in the Home company of New York. Mrs. McCormick's loss will not, probably, vary much from \$1500. She had \$600 insurance on her furniture and \$600 on her stock in the Desoto, of this city.

THE TOURNAMENT TO-MORROW.—Those having the matter in hand have perfected every arrangement for the grand tournament at Central Park to-morrow. The committee on grounds and buildings especially have discharged the duty assigned them with much taste and a thorough appreciation of the requirements of the occasion. An amphitheater capable of seating at least ten thousand spectators has been constructed around the arena, and so covered as to shut out the sun and at the same time afford ample ventilation. Nothing, in fact, has been neglected which could in any manner enhance the comfort of those present. Refreshments will be served by polite and attentive waiters, throughout the day. Special trains will be run out to the grounds on the Memphis and Charleston railroad every fifteen minutes, the fare by which out and return will be only twenty cents. Under the tutelage of Captain Van, the knights have been in constant practice for weeks past, and the skill they have acquired insures a spirited contest. May their gallantry be witnessed by a concourse of the fair worthy their efforts to win the approval of their smiles. Tickets on the railroad to be had at the Bethel Block and at the depot of the Memphis and Charleston railroad at twenty cents for the round trip.

RICE & ENGL have removed to 233 Main street, Clay Building.

THE ORPHANS' BENEFIT TO-NIGHT. The much talked of amateur entertainment, in aid of the orphans of the Church Home, comes off at the New Memphis this evening. The romantic Scotch drama of *Guy Mannering*, which was received with much favor on a recent occasion, will be reproduced with much the same dramatic persona. The farce of the *Dead Shot* will also be presented with the following cast: "Capt. Canon," Mr. W. H. Partello; "Hector Timid," Mr. Lou Loubric; "Mr. Wiseman," Mr. B. Newton Hart; "Frederick Thornton," Mr. Paul Wright; "Louisa," Mrs. C. D. Steinkuhl; "Chatter," Miss Jennie Gilbert. The worthy object of the entertainment, aside from whatever attractions are presented in the bill, should induce a large attendance, and thereby swell the proceeds to an amount that will go far toward enhancing the comfort of the fatherless and motherless among us.

KINGDON & KRAIG, shaving at fifteen cents, 57 1/2 Jefferson street, between Second and Third.

GO TO THE SUFFERING.—Great success and long practice in the treatment of that class of disorders arising from impurities of the blood, early indiscretions, and secret habits, have conspired to render Dr. Russell, of the dispensary, 40 and 42 North Court street, a safe and reliable custodian of the health of those suffering in this manner. Together with the Doctor's treatment, pleasant rooms can also be secured at the dispensary, with every comfort and attention of home. Consultation private and free of charge, between 8 o'clock a.m. and 8 p.m.

A YOUNG MAN calling himself Joseph Morgan stole a fine shot gun and pistol and all the contents of the wardrobe of Colonel H. B. S. Williams, from his residence near Withe Depot, Monday night, and left for parts unknown. The thief is about twenty-three or twenty-four years of age, square built, about five feet ten inches in height, and weighs about one hundred and sixty pounds. He wore a gray sack, dark pants and shoes. He has been traced to this city. We are authorized to say that Col. Williams will pay a liberal reward for the thief and stolen goods.

Curry, Sheriff, bonds good for the amount already given, and would recommend that the amount be increased to \$200,000. All of which is respectfully submitted. J. T. STANTON, Foreman, and the Jury.
